Abstract: A single paragraph of 500 words maximum. For research articles, abstracts should give a pertinent overview of the work. We strongly encourage authors to use the following style of structured abstracts, but with the headings: (1) **Background:** Place the question addressed in a broad context and highlight the purpose of the study; (2) **Methods:** Describe briefly the main methods or treatments applied; (3) **Results:** Summarize the article's main findings; and (4) **Conclusions:** Indicate the main conclusions or interpretations. The abstract should be an objective representation of the research, it must not contain results which are not presented and substantiated in the main text and should not exaggerate the main conclusions.

Keywords: keyword 1; keyword 2; keyword 3 (List three to ten pertinent keywords specific to the research; yet reasonably common within the subject discipline.)

The conference is a final part of the development project "ENHANCEMENT OF THE PHD STUDENTS POTENTIAL FOR QUALITATIVE RESEARCH IN UKRAINE" funded by the Ministry of Foreign Affairs of the Czech Republic, 2022.
